

GEOSYNTHETIC LINERS

We Are Ready to Roll!

Design, Build, Line, Secure!

Backed by experienced, well trained field teams, decades of industry know-how and a commitment to continuous improvement, Patriot has become known as a market leader for designing, building, lining and securing geosynthetic containment assets.

We are THE one-stop source for your turnkey geosynthetic liner & containment pond projects.

What We Offer...

- Single and Multi-Layer HDPE Liner Systems
- Geosynthetic Clay Liners (GCL)
- Geonet and GeoComposites
- Artificial Turf Closure Systems
- Erosion Control Solutions

Why Choose Us...

- Reliable Containment to deliver secure, proven protection
- Long-Lasting Durability to hold up to harsh conditions
- Lower Life-Cycle Costs for fewer repairs needed
- Fast, Safe Installation that is efficient and safety-focused
- Regulatory Compliance to strict industry and internal standards

Oil & Gas

We deliver innovative solutions for drilling, hydraulic fracturing, water treatment & recycling, storage, and offer water asset monitoring for the oil & gas E&P industry

- **Frac ponds**
- **Produced water pit**
- **Drilling reserve pits**
- **Secondary containments**
- **Asset mapping & monitoring**

Solid Waste & Landfills

Our complete line of liner systems & solutions meet safe waste management and the containment standards related to Title 40 CFR Parts 239-282.

- **Landfill site construction**
- **Sub-title D non-hazardous**
- **Temporary closures**
- **Long-term closures**
- **Compliance maintenance**

Energy & Power Generation

Lining systems & closures for coal combustion residuals (CCR or "Coal Ash") containment. Compliance to the EPA Resource Conservation and Recovery Act (RCRA).

- **Coal Ash Residual Containment**
- **Residual Landfills**
- **Geosynthetic Base Liners**
- **Closure Systems**
- **Effluent Discharge Containment**

Mining & Tailings

Custom geosynthetics systems to safeguard mining operation by managing process liquids and preventing groundwater contamination for mining operations.

- **Process solution & evaporation**
- **Heap leach pad liners**
- **Tailing impoundment systems**
- **Ground & erosion control**
- **Remediation of mine tailings**

Fresh Water & Wastewater

We serve pond lining clients ranging from municipalities and contractors to site owners, rancher and farmer. We deliver high-quality liner systems safely, on time, and on budget.

- **Retention basins**
- **Water reservoirs & canals**
- **Treatment & evaporation**
- **Fish hatcheries**
- **Irrigation solutions**
